

Patent Pending

The 1636MKADA is part of our popular 1630 Series of built-in locks, and offers the industry's first Three-Ways-To-Open™ technology, adding an affordable enhanced ADA option to Lift Handle lockers.

The 1636MKADA works on any lift handle locker where 1630 Series locks could be used.

EXCLUSIVE FEATURES

- Vertical travel locking bolt engages lift handle locker mechanism
- Convenient, automatic locking
- Fits all lift handle lockers
- Patent pending

Three-Ways-To-Open™ technology lock!

- **Student Key (for ADA student)**
 - Two keys provided with ADA keyheads
 - Key only opens one lock
- **Master Key (for supervisors)**
 - Each master key opens all 1636MKADA locks in your system
 - Each master key system has between 475-592 key changes
- **Combination (for use like other combo locks in your system)**
 - 5 combinations built in for reuse year after year
 - Automatic combination reset once door is shut
- Allows flexibility of using locker for standard use or ADA use
 - Combination for standard use and student key for ADA use
- Same look as our standard 1630 helps mainstream ADA students

1636 LOCKED

1636 UNLOCKED

- Key code is visible inside keyhead
- Same concealed mounting & rugged metal case as the 1630

Options

- Model 1637MKADA is available for left-hinged doors
- Metal dial available to deter vandalism; order number 1636MKMDADA
- Customize with a color – five colors to choose from

DIMENSIONS

Required door thickness 0.03 - 0.125 in. (0.8 - 3.2 mm)

SPECIFICATIONS

Architectural Specifications: Locks shall be built-in combination locks with a vertically operating bolt. Locks shall automatically relock on door closure. Locks shall be both key operated and combination operated. Key operation shall use a 5 pin tumbler cylinder with individual and master key capabilities. The individual key shall only open 1 lock in the system, while the master key will open all 1636MKADA locks in the system. Locks shall have five (5) preset combinations. Locks shall have random combination change pattern; no sequentially adjacent locks shall have the same combination change pattern. Locks shall be supplied with both a printed Control Chart and disc, containing the serial numbers and combinations. Order Master Lock 1636MKADA for lockers hinged on right, 1637MKADA for lockers hinged on left. For optional one-piece metal dial with non-slip finish specify Master Lock 1636MKMDADA (1637MKMDADA left hinged).

ADA Compliance Defined

The Master Lock 1600 ADA Series and 1700 ADA Series Built-in Locks meet the United States Department of Justice "2010 ADA Standards for Accessible Design". This Standard requires 5% of lockers meet ADA specifications. In addition, these standards state that operable parts, the locks, meet the following requirements:

- Shall be operable with one hand
- Shall not require tight grasping, pinching, or twisting of the wrist to operate
- Shall have a force required to activate of 5 lbf (22.2N) maximum

Master Lock ADA Compliant Locker Locks achieve these requirements through the use of a specially designed keyhead and the simple operation of the lock. The large flat keyhead makes the key easy to grip for those with extreme joint pain. For those with clenched fist dexterity, the flat keyhead fits securely between their fingers. The operation of the lock can be achieved by a simple bumping action to the ADA keyhead to both open and close the lock without the need of tight grasping, pinching, or twisting of the wrist.

Many of these locks are already in use in the field for ADA applications.

As needs and requirements vary, please consult the local authority regarding use of any of these locks for a specific application.

1600 ADA SERIES BUILT-IN COMBINATION LOCKS WITH STUDENT KEY/ MASTER KEY

Three-Ways-To-Open™ technology lock:

- Student key for ADA users (opens 1 lock)
- Master key for supervisors (opens all ADA locks in your system)

ADA Inspired Defined

Master Lock ADA Inspired locks address special needs beyond those outlined in the "2010 ADA Standards for Accessible Design". These portable locks are designed to be easy to use and assist those with physical or cognitive challenges operate a lock independently. All ADA Inspired locks fit most standard lockers.

1525EZRC Simple Combos™

- Simple Combos™ – specially selected combinations that use only numbers printed on the dial (no sub-increments) so users can more easily recall and dial their combination
- Supervisory key override matches existing Master Lock portable systems, plus key can also be matched with many built-in combination lock systems
- Colored dials – black, green, purple, red, blue, orange, grey or gold, and customization with your logo or text available

2076 SmoothSpin™

- No-grip dial lets users simply rub to open – essential for those with difficulty turning dials
- Supervisory key override matches existing Master Lock portable systems, plus can be matched with many built-in combination lock systems
- Colored dials available – black, green, purple, red, and blue

2650 PushKey™

- Easy-to-open and simple-to-use – simply insert the key and pull down on the flared, easy-to-grip body to open (no key turning required)
- Includes four keys, two with large key head covers which makes gripping easy for anyone
