

Now Available in 6 Colors!

The 6121 ProSeries® Weather Tough® Padlock is now available in 6 new vibrant colors including Red, Green, Yellow, Blue, Orange and White. Colors make it even easier to customize the padlock system in your facility - assign a color to each work site, location, department, employee, rank, etc...

These colored padlocks boast the same great security and features as the original 6121 padlock, such as a heavy steel body and a hardened boron alloy shackle for superior cut resistance as well as the same customization options.

New Colors, Same Great Features

The 6121 colored padlocks have the same great features & security options as the standard 6121 ProSeries® padlock, including:

- 5/16in (8mm) diameter hardened boron alloy shackle for superior cut resistance
- Weather Tough® Padlock Cover to protect locks from water, ice, dirt and grime
- Dual ball locking mechanism to resist pulling and prying
- 2-1/8in (54mm) heavy steel body to withstand physical attack
- High security, rekeyable 5-pin cylinder with spool pins, virtually impossible to pick
