Lock Bumping –

Lock Bumping has become a legitimate security threat as information on the topic has become widely exposed in the news media and on the internet.

In response to this threat, American Lock and Master Lock Company have developed an exclusive patented BumpStop® Advanced Technology that hinders the transfer of force from the bump key to the pins and blocks rotation of the cylinder. With a reverse rake tapered driver pin, high performance spring and precision tolerance chamber, **our 4, 5 and 6-pin BumpStop® products resist bump attacks.**

BumpStop® is included in all American Lock and Master Lock Government security products - Made-to-order and NSNs, to meet CID requirements.

In addition, BumpStop is an upgrade available with most American Lock and Master Lock pin tumbler padlocks and security products.

Model Number Option: N

For more details, see www.bumpstopsecurity.com or call your Master Lock Customer Service Representative today.

For over 60 years, American Lock and Master Lock, as prime contractors and subcontractors, have supplied every segment of DOD, Federal, State and Local Governments.

With unmatched lines of padlocks and portable security products, both American Lock and Master Lock padlocks are manufactured to exact Government CIDs and PIDs. Also, the exclusive BumpStop Advanced Cylinder Technology resists bump attacks.

American Lock has over 60 National Stock Numbers assigned to its product line to meet the most applications. Master Lock has more than 85 NSNs assigned to its product line. And through distribution Master Lock has in aggregate over 550 line items in GSA Advantage and 31 NSN line items referenced in DOD Email. Master Lock also supplies product to AAFES, Navy, Marines and the U.S. Coast Guard.

If an NSN set doesn't exactly match a requirement, turn to the Make-to-Order capabilities of American Lock and Master Lock. Choose the precise quantity of padlocks with the specific shackle lengths, chain attachments and keying options needed. American Lock and Master Lock will manufacture the locks to match your requirements.

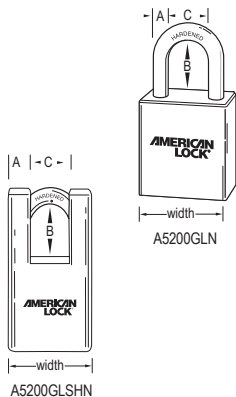

- Where required, American Lock and Master Lock products are designed to stringent government standards, CID-A-A-59486, CID-A-A-59487 and ASTM F883
- BumpStop® Advanced Cylinder Technology resists surreptitious attacks
- Make-to-Order capability – security products built and keyed to your requirements: shackle options, keying flexibility, laser engraving, key control and custom sets available
- 5-pin tumbler cylinder for added security
- More than 10,000 key changes available for maximum pick resistance
- Dual locking for superior pry resistance
- Most models are stamped “US”; sets are stamped “US SET”
- Non-removable keys for added security

Previously, many National Stock Numbers (NSNs) were able to be satisfied by either a laminated or a solid body padlock based on their Commercial Item Description (CID). This often led to confusion due to a number of agencies or organizations that stipulated a particular "body type" as mandatory or preferred. In order to relieve this issue, the Defense Logistics Agency (DLA) has created and assigned new NSNs to only satisfy solid body padlocks. On **January 1, 2013** these new NSNs will become active in the Master Lock Government Products Price List and are listed below. Each of the new NSNs fully comply with the performance standards identified in CIDs AA59486 and AA59487. The only difference will be the "body type."

For example: from January 1, 2013 forward, there will now be two (2) different NSNs for what was the 5340-00-158-3805. The 5340-00-158-3805 will ONLY satisfy laminated body padlocks and the NEW 5340-01-588-1036 will ONLY satisfy solid body padlocks.
