

ACCESS MANAGEMENT SOLUTIONS

MASTER LOCK® VAULT ENTERPRISE

NO KEYS TO LOSE • NO COMBINATIONS TO FORGET • NO UNAUTHORIZED KEY DUPLICATION

Smart, simple and secure access management for portable or remote assets.

The integrated Master Lock Vault Enterprise system provides businesses the most convenient way to control access, manage assets and improve accountability—while eliminating the cost, security risk and complexity of physical key management.

- Secure access—only authorized users can enter using the app or manual code
- Grant or revoke access quickly—efficiently ensure the right users have the right access
- Valuable audit capabilities—easily monitor access and access history with robust data and audit trails

These ProSeries® Padlocks are the latest in the Master Lock *Bluetooth*® enabled product family, offering improved functionality, security and enhanced weatherability, and are operated via mobile app or numeric code.

- Easy smartphone app access and monitoring
- 10-digit keypad alternate access
- Multiple shackle options
- Area for custom marking

The Master Lock Company

ProSeries Bluetooth Padlocks

Available in three models—standard, long and shrouded shackles.

All three feature:

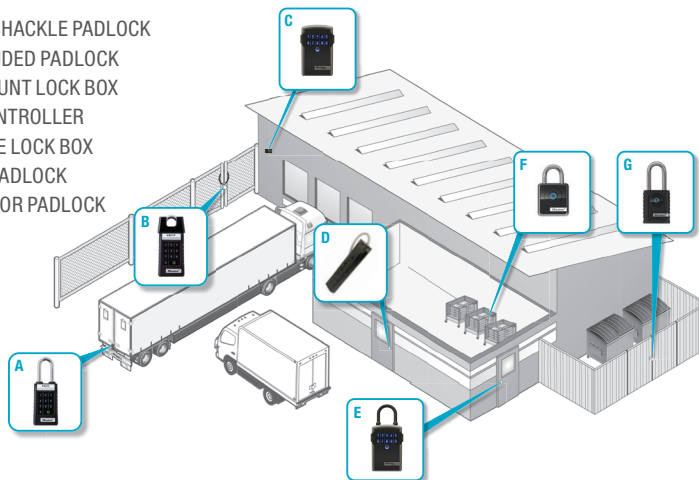

- Flexible access via mobile app or the easy-to-use 10-digit keypad for manual code entry
- Enhanced weather resistance—snow, rain and temperature extremes
- Designated area for lock identification
- Multiple shackle options, including anti-cut shackle shroud

Expanded and Integrated Keyless Security

The Master Lock Vault Enterprise system combines the savings and convenience of keyless security with the control, flexibility and accountability of Bluetooth enabled hardware. ProSeries Padlocks offer new security and functionality options for our integrated system—a comprehensive solution that is dedicated to efficient and effective security management and user access, whether to a single location or across an enterprise.
