

Lock-Locker Compatibility Program™

Have Confidence in Your Lock and Locker Selections!

This Seal Signifies List Industries Inc. Participation in the Lock-Locker Compatibility Program.™

We are dedicated to providing you with a problem free solution.

Compatibility and Quality Program

Master Lock Company and List Industries Inc.

Committing to lock and locker compatibility and quality

We understand that the compatibility between lock and locker must be seamless. We have your solution – the Lock-Locker Compatibility Program.™

Master Lock, in partnership with List Industries Inc., has developed an ongoing engineering collaborative and testing program. The program is designed to help ensure the locker purchaser receives a high quality, seamless, locker locking solution.

Program Elements

- ✓ **Annual Compatibility Review**
Verification testing and design review by engineers ensuring compatibility between locks and lockers.
- ✓ **Periodic Production Spot Checks**
List Industries Inc. performs periodic operation compatibility testing of locks on actual locker orders.
- ✓ **New Product Validation**
Ensures that new lock and locker products work as intended before introduction, providing seamless locker locking.
- ✓ **Annual Design Conference**
Master Lock and List Industries Inc. engineers meet to support, collaborate, and assist in continuous improvements.

Locker manufacturers participating in this program have agreed to conduct lock-locker testing and work in collaboration with Master Lock. This does not guarantee specific security or durability standards. Locker purchasers should conduct their own evaluation of lock-locker solutions prior to purchase to ensure the selected lock-locker solution meets their needs.

Please use this table as a guide only. Master Lock recommends trying your selected lock on your specific application prior to any purchase. Contact your lock distributor or Master Lock for assistance.

1690/1790 locks are recommended for single point latch lockers.

*Note: Single point latch lockers transitioned from horizontal latching (1652 or 1670) to rotating latching (Wrap Around Latch™) in 2008. Lockers built before 2008 will use horizontal latch locks. Please check with the locker manufacturer to confirm latch type used for lock built in 2008 or after.

Handle/Latch Type	Lock Selection	Electronic Built-In Locks	Multi-User Locks	Built-In Wrap Around Latch Locks	Built-In Combination Locks			Combination Portable Padlocks		
					Highest Security	General Security	Higher Security	Key Controlled		Not Key Controlled
								Higher Security	General Security	Higher Security
	Recessed Handle w/ Gravity Lift-Type Latch		Consult List Industries		1630, 1631 (L)	1670, 1671 (L)	1710MK	1525, 1585		1502, 1572
	Recessed Handle w/Single-Point Thru-the-Handle Latch			1790*		1690*		1525, 1585	2010	1502, 1572
	Projecting Finger-Pull Thru-the-Door Friction Catch		Consult List Industries			1670	1710MK	1525, 1585	2010	1502, 1572
	Projecting Spring-Bolt for Top Hinged Doors					1670	1710MK	1525, 1585	2010	1502, 1572
	Projecting 3-Point Turn-Handle Latching (Includes Welded Cabinets)		Consult List Industries			1670	1710MK	1525, 1585	2010	1502, 1572
	Projecting Lift-Type Handle for Plastic Lockers							1525**, 1585**	2010**	1502**, 1572**
	Projecting Finger-Pull Thru-the-Door Friction Catch for Plastic Lockers							1525**, 1585**	2010**	1502**, 1572**
	Projecting Padlock Hasp for Bulk Storage Lockers							1525, 1585	2010	1502, 1572
	Wood, Plastic Laminate and Phenolic Lockers	3685 ***			1654 *** 1655 ***			1525 *** 1585 ***	2010 ***	1502 *** 1572 ***

Note: Models 1790, 1714 and 1710 are available with optional master keying. Add MK to product number when ordering. (ie: 1790 + Master Key = 1790MK)

* Can be used on 12" & wider; 9" wide lockers are for use with padlock only. Requires a spacer (RLS1) between back of handle and lock. Single & Double Tier KD require Horizontal Support Angle (HSA)

** Production lockers are prepared for padlock use only. Can be ordered for use with other lock options. Consult List Industries.

*** Wood, Plastic Laminate and Phenolic Lockers MUST be manufactured specifically for the lock used (ie. 3685, 1654/1655 or portable combination lock.) Consult List Industries.

- 1** Select Handle/Latch Style
- 2** Select Lock Style
S = short shackle, 1/2" decrease
Recommended for lockers with pockets
- 3** Select Security Level
- 4** For Built-Ins- Select Left or Right Hand Opening Door
All options are right handed unless (L) designated for left-handed lockers
- 5** Select ADA Lock Options
