

Stainless Steel Padlocks

Bring on the toughest weather and harshest conditions. The new American Lock® stainless steel solid body padlocks stand up to any environment. With complete **corrosion-resistant construction**, these padlocks are built to provide **high security in any conditions**, making them ideal for heavy-duty industrial and marine applications.

Offering the custom **make-to-order options** you've come to expect from American Lock, these stainless steel padlocks come in 1-3/4" and 2" padlock widths, with a choice of 1-1/8" or 2" shackle heights.

These padlocks' stainless steel shackles **stand up to physical attacks**, rendering strong resistance against cutting and sawing.

American Lock stainless steel solid body padlocks are **rekeyable and easy to service**, with replaceable 5- and 6-pin cylinders providing tens of thousands of key changes.

Optional upgrades include BumpStop® Advanced Cylinder Technology, Edge™ Key Control and Weatherbuilt™ Padlock Protection.

With nearly 100 years of precision machining and quality manufacturing, American Lock products **exceed commercial industry standards**. Our new stainless steel solid body padlocks offer tough security for the toughest environments.

Stainless Steel Padlocks

1-3/4" (44mm) Rectangular Padlocks

| Specifications | Models | |
|----------------|------------------|--------------|
| 5-pin / APTC12 | A5400 | A5401 |
