The Resettable Combination Padlock Family

The 975 padlock fits right in with the rest of the Master Lock resettable combination padlock family. It boasts the best features from the 175 series padlocks, like the sleek brass body and hardened steel shackle, and from the 1175 series padlocks, like the dual deadlocking mechanism. Manufactured in the USA*, the 975 padlock combines these great features to create a great security option for multiple-user applications.

* Manufactured in the USA, assembled in Mexico
