

Lock Lubricant with PTFE

Ideal for Maintaining Lock Performance

Master Lock® Lock Lubricant is **the ideal lubricant for multiple lock applications**, including: padlocks, door locks, automotive, marine and multipurpose applications. The PTFE formulation **cleans the lock components while lubricating** and leaves behind a **protective shield** against dust, dirt, salt, moisture and other corrosive materials. This unique formulation is excellent for locks used within a **wide temperature range** and will help de-ice pre-lubricated locks. Lubricant helps **maintain lock performance** and **increases the life** of your security products.

Both 2305 and 2311 aerosols are **NSF registered** for use in and around food processing areas".

Effective operating temperature range is -40°F to 500°F and has a co-efficient of friction of (.02 to .04).

Master Lock Lock Lubricant is **available in multiple sizes**: Use 5.25 oz. and 11 oz. aerosol cans for lock maintenance and 0.25 oz. oiler in pocket-sized pens for on-the-go individual use.

11 oz. Can
