For Immediate Release

Master Lock's Multi-User Lock Convenience factor on display at Athletic Business Conference & Expo

(MILWAUKEE, WIS.) – November 6, 2014 – Since being introduced to the marketplace earlier this year, the Master Lock® Multi-User lock has proven to be as good as advertised. Facilities with many customers coming and going on a daily basis who are using the same locker, will want to learn more about Master Lock's (booth 945) featured product at the Athletic Business Conference & Expo, being held November 13-15 at the Orange County Convention Center in Orlando.

The Multi-User lock makes life simpler for facility managers at health clubs, country clubs, and gyms and spas. The exclusive Locker/Cabinet category lock reduces specific, time-consuming procedures previously handled by staff and management. The client can set their own personalized 3-digit combination to secure their belongings and clear it for the next user. A supervisory key is available to allow access to any locker at any time if necessary.

Visitors attending the ABC & Expo have an incentive to try out the Multi-User lock. The first 50 booth visitors who do will receive a Master Lock water bottle or travel mug.

"Our Multi-User lock offers the ultimate convenience for organizations and their clientele at any facility where lockers are needed for temporary use. The feedback we have received from customers indicate this lock is a real winner for them," exclaimed Kevin McCarthy, Master Lock's Product Manager for Locker Locks.

"It's a very simple lock that is easy to operate and does the job every time. We manufactured it using the latest locking technology and it fits on nearly every metal or wood design. The Multi-User lock is available in three different models and includes an optional extension kit to ensure proper fit on thicker doors."

Models 3630 and 3631 are used on lockers with a lift latch, and model 3670 has a retractable deadbolt more fitting for wooden locker doors. Stickers or magnets with user instructions for placement on lockers are available for purchase. Learn more about the Multi-User lock by visiting www.masterlock.com/multiuser.
