# SAFETY COMPLIANCE MANAGEMENT SOFTWARE

INSPECTIONS • AUDITS • LOCKOUT/TAGOUT

SAFER WORKPLACES THAT BENEFIT EVERYONE

SAFETY GOES UP, COSTS COME DOWN.

Implementing Field iD helps to protect people and organizations. It brings safety standards up and costs down, all while providing unparalleled control.

INCREASE EFFICIENCY
Complete inspections and audits faster, more accurately, and without duplicate data entry.

IMPROVE ACCURACY
Quickly identify assets and LOTO isolation points with RFID and barcodes. Field iD includes out-of-the-box compatibility with the latest barcode technology.

REDUCE LIABILITY
Automatic scheduling and notifications help ensure timely inspections, reducing the chance of an accident.

LIMIT COSTS
Maintaining a safe and compliant workplace can limit accidents and keep insurance costs down.

BE COMPLIANT
The Field iD Safety Dashboard provides greater visibility into your compliance requirements.

EMPOWER YOUR WORKERS
Employees can conduct audits to uncover potential hazards.

TAKE CONTROL OF YOUR SAFETY PROGRAM

THE POWER OF CLOUD-BASED SOFTWARE WITH THE CONVENIENCE OF MOBILE DEVICES.

Master Lock Field iD is a cloud-based software solution that helps streamline safety management by making inspection processes and lockout/tagout procedures digital. Field iD eliminates paperwork and the re-entry of safety data by allowing you to manage processes and procedures from mobile devices.
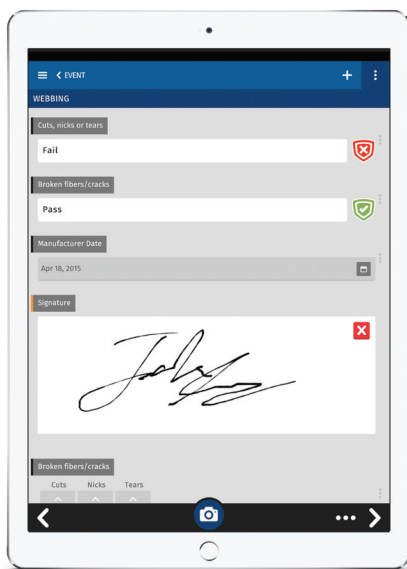

With Field iD, safety compliance becomes more convenient because safety data is always accessible. Data is saved and stored on a secured infrastructure with 24/7 accessibility and reporting. Field iD's cloud-based delivery system provides seamless transfer of data, while simultaneously assuring security against unauthorized access.

Field iD helps to ensure that all stakeholders, including safety managers, internal company inspectors, third-party inspectors, certifiers and governing bodies, have a complete picture of an organization's safety program.

TAKE SAFETY TO THE NEXT LEVEL
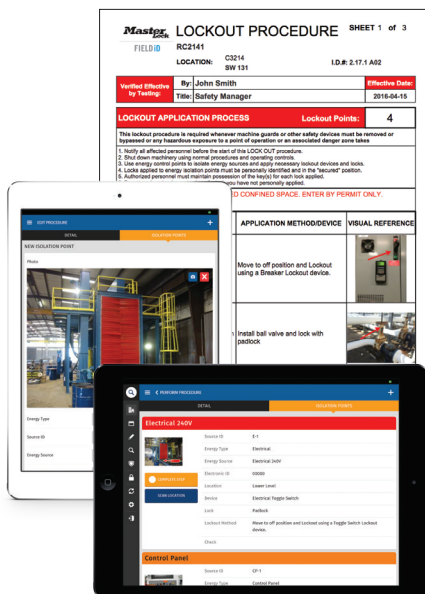

TWO MODULES TO HELP IMPROVE SAFETY.

Field iD offers two modules to help take your workplace safety to the next level. Remove the guesswork from safety compliance inspections and reporting with Field iD's Inspection and Safety Compliance Management module. Gain leading-edge lockout accountability with Field iD's Lockout/Tagout module.

INSPECTION AND SAFETY COMPLIANCE MANAGEMENT

Conduct inspections and audits either on the web or on a mobile device – it's up to you. Field iD allows you to use a laptop, tablet or smartphone to record an inspection. Almost everything is template driven to increase speed, accuracy and consistency.

- Complete equipment inspections
- Conduct safety audits
- Track assets
- Create customized checklists
- Uncover and assign corrective actions

- Set up email reminders for required tasks, inspections and audits
- Customize reporting
- Pull real-time data

LOCKOUT/TAGOUT MANAGEMENT

Use Field iD to easily author and edit lockout procedures from a smartphone, tablet or laptop. With Field iD, authorized personnel are instantly working from the latest and most accurate lockout procedures. User login establishes who is performing the work, when the task began, and when it concluded. Field iD provides leading-edge accountability that instructs workers, confirms performance and helps prevent accidents.

- Author, edit and publish lockout procedures
- Ability to create main and sub procedures
- Export and print visual lockout procedures
- Test and verify effectiveness of procedures in real time

- Assign, perform and record lockout procedure activity
- Schedule and track annual safety audits
- Access compliance information on a comprehensive dashboard
- Enhanced reporting

FIELD iD SOFTWARE FEATURES

INSPECTION & AUDITS
Our flexible and powerful form builder will give new life to your paper forms.

PROCEDURE WRITING
Author and edit custom procedures in real time in front of equipment.

WORK ONLINE OR OFFLINE
Information collected offline is saved and updated as the software syncs whenever the Internet is available again.

SCHEDULING
Create recurring or event-triggered scheduling rules to ensure you never miss a critical inspection or audit.

EMAIL NOTIFICATIONS
Receive email notifications on upcoming or overdue work.

REPORTING & ANALYTICS
Analyze your data to find what's important to you.

RFID & BARCODES
Utilize high-frequency RFID, 2D or 3D barcodes to quickly identify and trace your equipment.
