The 1676MKADA is part of our popular 1670 Series of built-in locks, and offers the industry’s first Three-Ways-To-Open™ technology, adding an affordable enhanced ADA option.

The 1676MKADA works on any locker where 1670 Series locks could be used.

**EXCLUSIVE FEATURES**

- Horizontal bolt travel provides maximum engagement to latch mechanism
- Deadbolt locking is ideal for open mesh and ventilated lockers
  with access to back of lock
- Manual action required to relock door
- Fits all locker styles (with the exception of the Wrap Around Latch™ designed lockers)
- Patent pending

**Three-Ways-To-Open™ technology lock!**

- **Student Key** (for ADA student)
  - Two keys provided with ADA keyheads
  - Key only opens one lock
- **Master Key** (for supervisors)
  - Each master key opens all 1676MKADA locks in your system
  - Each master key system has between 475-592 key changes
- **Combination** (for use like other combo locks in your system)
  - 5 combinations built in for reuse year after year
  - Automatic combination reset once door is shut

- Key code is visible inside keyhead
- Same concealed mounting & rugged metal case as the 1670

**Options**

- Model 1677MKADA is available for left-hinged doors
- Metal dial available to deter vandalism; order number 1676MKMDADA
- Customize with a color – five colors to choose from

**DIMENSIONS**

Required door thickness 0.03 - 0.125 in. (0.8 - 3.2 mm)

**SPECIFICATIONS**

Architectural Specifications: Locks shall be built-in combination locks with a horizontally operating deadbolt. Locks shall manually unlock and re-lock. Locks shall be both key operated and combination operated. Key operation shall use a 5 pin tumbler cylinder with individual and master key capabilities. The individual key shall only open 1 lock in the system, while the master key will open all 1676MKADA locks in the system. Locks shall have five (5) preset combinations. Locks shall have random combination change pattern; no sequentially adjacent locks shall have the same combination change pattern. Locks shall be supplied with both a printed Control Chart and disc, containing the serial numbers and combinations. Order Master Lock 1676MKMDADA for lockers hinged on right, 1677MKMDADA for lockers hinged on left. For optional one-piece metal dial with non-slip finish specify Master Lock 1676MKMDADA (1677MKMDADA left hinged).
The Master Lock 1600 ADA Series and 1700 ADA Series Built-in Locks meet the United States Department of Justice “2010 ADA Standards for Accessible Design”. This Standard requires 5% of lockers meet ADA specifications. In addition, these standards state that operable parts, the locks, meet the following requirements:

- Shall be operable with one hand
- Shall not require tight grasping, pinching, or twisting of the wrist to operate
- Shall have a force required to activate of 5 lbf (22.2N) maximum

Master Lock ADA Compliant Locker Locks achieve these requirements through the use of a specially designed keyhead and the simple operation of the lock. The large flat keyhead makes the key easy to grip for those with extreme joint pain. For those with clenched fist dexterity, the flat keyhead fits securely between their fingers. The operation of the lock can be achieved by a simple bumping action to the ADA keyhead to both open and close the lock without the need of tight grasping, pinching, or twisting of the wrist.

Many of these locks are already in use in the field for ADA applications.

As needs and requirements vary, please consult the local authority regarding use of any of these locks for a specific application.

**1600 ADA SERIES BUILT-IN COMBINATION LOCKS WITH STUDENT KEY/ MASTER KEY**

Three-Ways-To-Open™ technology lock:

- Student key for ADA users (opens 1 lock)
- Master key for supervisors (opens all ADA locks in your system)
- Combination for use like other combo locks in your system (5 combinations built in for reuse year after year)

**ADA Inspired Defined**

Master Lock ADA Inspired locks address special needs beyond those outlined in the “2010 ADA Standards for Accessible Design”. These portable locks are designed to be easy to use and assist those with physical or cognitive challenges operate a lock independently. All ADA Inspired locks fit most standard lockers.

- Simple Combos™ – specially selected combinations that use only numbers printed on the dial (no sub-increments) so users can more easily recall and dial their combination
- Supervisory key override matches existing Master Lock portable systems, plus key can also be matched with many built-in combination lock systems
- Colored dials – black, green, purple, red, blue, orange, grey or gold, and customization with your logo or text available
- No-grip dial lets users simply rub to open — essential for those with difficulty turning dials
- Supervisory key override matches existing Master Lock portable systems, plus can be matched with many built-in combination lock systems
- Colored dials available – black, green, purple, red, and blue
- Easy-to-open and simple-to-use – simply insert the key and pull down on the flared, easy-to-grip body to open (no key turning required)
- Includes four keys, two with large key head covers which makes gripping easy for anyone
