

ELEVATE THE EXPERIENCE

Designed to elevate the experience for facilities and users, the Electronic Built-In Locker Lock combines a modern design with premium materials to offer improved functionality.

Backed by the strength, reliability and service of the Master Lock brand, the Electronic Built-In is ideal for health clubs, gyms, spas, recreation facilities and country clubs, and offers significant benefits:

High-visibility display provides interactive feedback

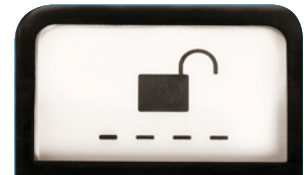

A single CR123A 3V lithium battery lasts longer to help minimize maintenance

Sensors provide visual & audible alerts to signal if locking mechanism is blocked

Electromechanical deadbolt enhances security

High-quality materials withstand high-moisture environments

- Ability to turn sound on/off

Large icons clearly show locker vacancy status

- Option to switch between single-user and multi-user lock modes

- Option to set code length to 4, 5 or 6 digits

- High-gloss keypad allows users to easily create personal codes

- Unique master backup code allows administrative access to locker

9V battery backup jump port to temporarily power lock if battery dies
