

MANAGE THE PLACEMENT AND MOVEMENT OF GROUP LOCK BOXES TO PROTECT YOUR PEOPLE

- **Use it where it's needed** – Mount with the bracket for routine, daily use; take it portable for remote lockouts; or move to a bracket in another area for large turnarounds
- **Prevent unwanted box removal from the wall** with optional locking of box to bracket
- **Monitor the status of group lockouts at a glance** with product features that improve lockout verification
- **Store more padlocks and conduct more lockouts** within a limited space with this small footprint, large capacity box

S3650 comes with 1 lock box and 1 mounting bracket
Safety padlocks sold separately
