

Easy-to-use Intuitive Design, Perfect for Group Lockout!

- Lockout by up to either 12 (S440) or 24 (S450) workers at each lockout point
- Keeps equipment inoperative while repairs or adjustments are made
- Control cannot be turned on until last worker's padlock is removed from hasp
- Anodized aluminum finish for superior corrosion resistance
- Offset lockout holes ensure hasp cannot be locked in open position
- Raised areas for improved sliding action
- Accepts all Master Lock & American Lock safety padlocks
- Includes English, French, and Spanish "Locked Out" identification labels
