- Extension kit available for use on wooden doors with a thickness of 11/16in to 3/4in

Designed for high customer turnover facilities, the Multi-User Built-In Combination lock adds convenience to your facility by giving visitors the ability to choose their own locker and set their own 3-digit combination - the locks retain the combination until re-set. A sleek design with satin finish, these locks will look great in your facility while eliminating distribution, tracking/management of keys, combinations or locks. Three models are available to fit any locker door.
