The Master Lock No. 6327 ProSeries® Shrouded Padlock, keyed alike - multiple locks open with the same key - features a 2-5/8in (67mm) heavy steel body that withstands physical attack and a 3/4in (19mm) tall, 7/16in (11mm) diameter hardened boron alloy shackle for superior cut resistance. Ideal for transportation and industrial applications, the iron shroud protects the shackle from bolt cutters and a dual ball locking mechanism resists pulling and prying. The high security, rekeyable 5-pin cylinder with spool pins is virtually impossible to pick
