3in (76mm) Shrouded Solid Steel
Rekeyable Pin Tumbler Padlock, Keyed
Alike

- —APTTC14
- 3in (76mm) wide body withstands physical attacks
-
- 1-1/2in (38mm) tall, 1/2in (13mm) diameter boron alloy steel shackles for superior cut resistance
- 6APTTC14
-

The American Lock No. A790KA Maximum Security Solid Steel padlock, Keyed Alike - multiple locks open with the same key - features a 3in (76mm) wide case hardened, chrome plated solid steel body with a 1-1/2in (38mm) tall, 1/2in (13mm) diameter hardened boron alloy steel shackle for superior cut resistance. Virtually indestructible, padlock body is designed to resist cutting, sawing and corrosion while stainless steel cylinder pins offer increased drill resistance. A dual ball bearing locking mechanism resists pulling and prying and a 6-pin APTTC14 rekeyable cylinder is virtually impossible to pick.
