3in (76mm) Shrouded Solid Steel
BumpStop® Rekeyable Pin Tumbler
Padlock

- BumpStop®
- 3in (76mm) wide body withstands physical attacks
-
- 1-1/2in (32mm) tall, 1/2in (13mm) diameter boron alloy steel shackles for superior cut resistance
- 6APTC14
-

The American Lock No. A790N Maximum Security Solid Steel padlock with BumpStop® Advanced Cylinder Technology features a 3in (76mm) wide case hardened, chrome plated solid steel body with a 1-1/2in (38mm) tall, 1/2in (13mm) diameter hardened boron alloy steel shackle for superior cut resistance. Virtually indestructable, padlock body is designed to resist cutting, sawing and corrosion while stainless steel cylinder pins offer increased drill resistance. A dual ball bearing locking mechanism resists pulling and prying and a 6-pin APTC14 rekeyable cylinder is virtually impossible to pick.
