Valve Lockout

OVERVIEW & FEATURES

Product Features

- Rotating gate valve lockout device
- Outward/inward rotation allows for easier installation and storage
- Surrounds the valve-operating handle to protect against accidental valve opening
- Unique patented rotating design allows for easier installation in confined space applications
- Each size rotates into itself and nests into the next larger size to save space in safety tool boxes
- Center knockout can be removed for rising-stem gate valves
- Fits 1in to 3in (25mm to 76mm) diameter valve handles
- Complete with high-visibility permanent safety labels (English, French and Spanish) that can be written on to identify the responsible person
- Tough, lightweight, dielectric thermoplastic bodies withstand chemicals
- Carded packaging for showroom display

Product Details

The Master Lock No. 480D Rotating Gate Valve Lockout Device - packed in carded packaging for showroom display - features a 1-1/16in (30mm) depth and 3/4in (19mm) stem opening for 1in to 3in (25mm to 76mm) diameter valve handles to surround the valve-operating handle to protect against accidental valve opening. The unique, patented rotating design allows for easier installation in confined space applications. Tough, lightweight, dielectric Zenex™ thermoplastic body withstands chemicals and performs effectively in extreme conditions. Includes high-visibility permanent safety labels. This carded product is suitable for display in commercial showrooms.
