ADA & Special Needs

School, Employee, & Athletic Lockers

OVERVIEW & FEATURES

Product Features

- Three ways to open patent pending lock; student key for ADA users (opens 1 lock), master key for supervisors and combination
- Designed for standard single point horizontal latch lockers with hinges on the right, like 1652 Series
- NEW Patent Pending button-less combination change process for easier, faster combination changes - Longer useful life with 5 different pre-set combinations
- ADA Compliant ? Meets United States Department of Justice ? 2010 ADA Standards for Accessible Design? requirements
- Comes with two keys for ADA keyheads; order master keys separately
- Matches the look of other locks in system to mainstream students
- Flexible administration ? assign locker for standard combination or ADA keyed use
- Red, non-slip grip dial for school spirit and style. Also available in Blue, Green, Purple and Black

Product Details

Compliant with ADA Standards, the Master Lock No. 1656MKADA Built-In Combination Lock series is designed for single point horizontal latch lockers and features three ways to open with a student key, master key and combination (for use like other combination locks in your system). These locks are designed for special needs students without looking different. As the ADA version for the 1652 series, these locks have five different pre-set combinations for a longer, useful life in your facility.
