## BEST USED FOR

Safety Lockout/Tagout

Valve Lockout

## OVERVIEW & FEATURES

### Product Features

- Rotating Gate Valve Lockout Device Set
- Set of five rotating gate valve lockouts (480, 481, 482, 483 and 484)
- Outward/inward rotation allows for easier installation and storage
- Surrounds the valve operating handle to protect against accidental valve opening
- Unique patented rotating design allows for easier installation in confined space applications
- Each size rotates into itself and nests into the next larger size to save space in safety tool boxes
- Center knockout can be removed for rising stem gate valves
- Multiple workers can apply their personal safety padlocks
- Complete with high visibility permanent safety labels (English, French & Spanish) that can be written-on to identify the responsible person
- Tough, lightweight, dielectric thermoplastic bodies withstand chemicals

### Product Details

The Master Lock No. 485 Rotating Gate Valve Lockout Device combo pack includes a set of five lockouts - 480, 481, 482, 483, 484. These gate valve lockout devices feature outward/inward rotation to allow for easier installation and storage and the body surrounds the valve operating handle to protect against accidental valve opening. The unique, patented rotating design allows for easier installation in confined space applications. Tough, lightweight, dielectric Zenez™ Thermoplastic body withstands chemicals and performs effectively in extreme conditions. Includes high-visibility permanent safety labels.
