

Model No. 3681

Electronic Built-In Locker Lock with Bluetooth-Enabled Fob for ADA Applications

Best Used For:

Health & Recreation
Facility Lockers

Office Environments
& Equipment

School, Employee, &
Athletic Lockers

Overview & Features

Product Features

- For ADA applications, a Bluetooth-enabled fob comes synced with the lock, allowing users to open/close the lock
- Large icons clearly show locker vacancy status
- High-visibility display provides interactive feedback
- A single CR123A 3V lithium battery lasts longer to help minimize maintenance
- A low-battery alert notifies administrator when it's time to replace the battery
- 9V battery backup jump port can temporarily power the lock if battery dies
- Sensors provide visual & audible alerts to signal if locking mechanism is blocked
- Unique Backup Master Code or Administration Key (Model number: 1566) allow for administrative access to locker
- Ability to turn sound on/off
- Replacement Bluetooth-enabled fobs available (Model number: 3686)

Product Details

Ideal for ADA applications, the Master Lock 3681 Electronic Built-In Locker Lock with Bluetooth-Enabled Fob is designed to elevate the experience. Combining a modern design with premium materials to offer improved functionality, the 3681 includes a Bluetooth-enabled fob that comes synced with lock. This fob allows users to open/close the lock with the push of a button. The 3681 offers a new level of innovation with its high-visibility display screen for intuitive operation, long battery life to reduce operating costs, and anti-jamming features for reliable security. Suitable for most lockers - metal, wood or phenolic. Reversible design works on lockers with left or right hinges. Easy to retrofit. Strike plate included.
